

# DRAMA QUEEN

## MARTIN FUNCELL

Calling you a Drama Queen may seem so mean  
But it really describes your reality scene  
You question me like a suspect getting grilled  
Dating you it's a routine drill

Drama Queen is a label you know  
Hate to be the one to tell you so  
You don't like labels but it fits the bill  
Every little thing you make a big deal

You're a Drama Queen, Drama Queen  
Please don't cry please don't scream  
You're a Drama Queen, Drama Queen  
Don't get upset don't get steamed

You pick apart everything I say  
Analyze the things I didn't say  
You imagine and worry about the future too  
Get mad for what I just might do

You talk and argue the whole night through  
Keeping me awake, you can be so cruel  
You get upset at me all the time  
Everything I do feels like a crime

You're a Drama Queen, Drama Queen  
Please don't cry please don't scream  
You're a Drama Queen, Drama Queen  
Don't get upset don't get steamed

You over think you become paranoid  
Make a list of people to avoid  
You play with my emotions like a toy  
Everytime I'm happy you kill the joy

You talk about yourself all the time  
About all your problems don't care about mine  
You listen to any barfly's advice  
Anything I say you just call lies

You're a Drama Queen, Drama Queen  
Please don't cry please don't scream  
You're a Drama Queen, Drama Queen  
That's the truth not trying to be mean
