

50 Ways to Delete your Lover

Marty Fucell – 7/20/11

The problem is all inside your disk, she emailed me
The solution is easy if you use your PC
I'd like to assist you in your struggle to dump me
There must be fifty ways to delete your lover

She said it's really not my iPhone that I use
Furthermore I hope my message won't be blocked or misconstrued
So I repeat myself, since I know your easily confused
There must be fifty ways to delete your lover, fifty ways to delete your lover

Chorus:

Just send a text, Rex, write on her wall, Paul
Log-on to chat, Matt, just listen to me
Write a blog, Bob, don't need to discuss much
Just post on your space, Case, and get yourself free
Just post a tweet, Pete, and get yourself free
(repeats 2x)

She said it grieves me so to see you with writer's block
I wish there was something I could do to open up your lock
I said, I appreciate that, then would you please explain about the fifty ways

She said, just shutdown your box for tonight
And I believe, in the morning when you bootup you'll see the light
And then she signed off with me and I realized she was right
There must be fifty ways to delete your lover, fifty ways to delete your lover

Chorus
